AnonThera — The Anonymous Therapists, Rebuilt with AI

A voice-first, multilingual mental wellness platform for India's 150 million underserved

BNMIT Hackathon 2026 · Team: Siddharth P, Revanth M, P Yukthesh

Made with GAMMA

One student dies by suicide every hour in India

150M+

Indians need mental health support

WHO/NIMHANS data shows critical need

85%

Treatment gap

Receive nothing (WHO India 2024)

1/hr

Student suicide rate

Highest globally (NCRB 2024)

70%

College students with anxiety

Moderate to severe (2024 study)

Zero mandatory school counsellors in Indian education system (NEP 2020). 1 psychiatrist per 343,000 people in rural India (WHO 2024). Woebot — FDA gold standard — shut down B2C June 2025 because it couldn't crack India.

Made with GAMMA

Four layers. One free product. Zero barriers.

AI Companion

Multilingual CBT-informed conversation in 5 Indian languages with voice input, available 24/7

CBT Mood Engine

Daily mood check-in, 7-day energy trend graph, weekly AI insight from mood patterns

Anonymous Peer Matching

The ONLY anonymous peer support feature in any Indian mental health app

Emergency SOS

Auto-triggered crisis detection, instant links to NIMHANS, iCall, Vandrevala helplines

> "AnonThera is what happens when a student who needs help opens their phone at 4am — and actually finds it."

Made with GAMMA

Every app that tried to solve this failed India

Feature	Free	Anonymous	Indian Languages	Peer Matching	24/7	
Wysa	❌	✅	❌	❌ English only	❌	✅
YourDOST	❌	❌	❌	❌	❌	❌
Woebot	❌	✅	❌	❌	❌	✅ (shut down)
iCall TISS	✅	❌	❌	❌	❌	❌ Mon–Sat only
AnonThera	✅	✅	✅ 5 languages	✅ UNIQUE	✅	

Each competitor missed at least one critical requirement. AnonThera is the only product combining all six essential features.

Made with GAMMA

Industry-grade stack. Entirely free. Infinitely scalable.

01

Frontend

Next.js + React + Tailwind CSS deployed on Vercel Hobby (100GB bandwidth/month, free)

02

AI Layer

Google Gemini 1.5 Flash — 1,000,000 tokens/day free · 1M token context window · 15 requests/minute

03

Voice Layer

Web Speech API (browser-native) supports hi-IN, ta-IN, te-IN, kn-IN, en-IN

04

Database

Firebase Spark (free tier) — 50,000 Firestore reads/day · 20,000 writes/day · 50,000 MAU auth

₹0

Cost to run at launch

Every component on verified free tier

13×

Token headroom

500 DAU × 3 msgs × 50 tokens = 75K vs 1M available

Made with GAMMA

A friend who speaks your language. Literally.

AI Companion

- Powered by Google Gemini 1.5 Flash
- Responds in Hindi, Tamil, Telugu, Kannada, English
- Voice input via Web Speech API — speak, don't type
- CBT-informed prompt: validates feelings first, reframes gently, never diagnoses
- Available 24/7 — not just Mon–Sat 8am–10pm like every helpline
- Conversation history persists via Gemini multi-turn API

Peer Matching Flow

1

Select Struggle

User chooses tag: Academics / Relationships / Career / Family

2

Anonymous Match

Paired with another user sharing same tag — anonymous ID only

3

Text Chat

No names, no photos, no profiles. Pure peer support.

4

Control & Safety

Either user can end session. Report button active throughout.

Made with GAMMA

From hackathon to 100,000 students — in 3 phases

Phase 1: 0–3 months

500 DAU · 3 universities pilot · NIMHANS research MOU

Phase 2: 3–12 months

10,000 MAU · 10 institutions · ₹50L ARR · 3 state government pilots

Phase 3: 12–36 months

100,000 MAU · National deployment · ₹2Cr+ ARR · Full NAAC integration

1 2 3

$498M

India mental health app market

MRFR 2024

23.4%

CAGR through 2035

150M+

Addressable users in India

SDG 3 — Good Health & Well-being

SDG 4 — Quality Education

SDG 10 — Reduced Inequalities

Made with GAMMA

Students use it free. Institutions pay. Everyone wins.

🟢 Students

Free forever

- Full AI companion
- Mood tracking
- Peer matching
- Emergency SOS

🔵 Institutions

₹5-15L/year

- Anonymised cohort dashboards
- NAAC wellness compliance reports
- Admin portal
- Usage analytics

🟡 Government

₹50L-2Cr/year

- State-wide deployment
- Policy dashboards
- Research data access
- Custom integrations

Institutional pricing tiers based on student population. Free tier remains accessible to all individual users.

Made with GAMMA

We built what they couldn't

Only Free + Anonymous Indian Mental Health App
No paywall, no identity, no barrier to entry

First Voice-First Multilingual Mental Health AI in India
Hindi, Tamil, Telugu, Kannada, English via Web Speech API

First Anonymous Peer Matching in Indian Mental Health
No competitor — Wysa, YourDOST, iCall — offers this feature category

Auto-SOS Crisis Detection
AI detects crisis language and instantly surfaces local verified helplines

Institutional CBT Data Layer
Anonymised cohort mood trends = NAAC-ready wellness reports for institutions

₹0 Infrastructure Cost at Launch
13× free-tier headroom — scales to 2,000 conversations/day before first rupee spent

> "AnonThera is the only product combining AI + peer matching + CBT + 5 Indian languages + free + anonymous. No one else does all six."

Made with GAMMA

The 4am gap. We filled it.
